Http2, Node Cluster, Express.js, Koa.js

DATABASE
MySQL, NoSQL (Mongo DB, Redis)

CLOUD
AWS, HAProxy, NginX, Linux Container, Docker

GIT
Github, Bitbucket, Gitlab

NPM

@kaweb/react-mql
CSS Media Queries HOC and MediaContext for React.

EXPERIENCE

Cisco Systems

Sr. Tech Lead | Mar 2013 - Present

- Playing role of Web Architect for ReactJs based UI framework and application development.
- Identifying non-functional requirements such as performance, browser compatibility, security, portability and scalability of the application.
- Responsive and scalable designs using React.js ecosystem.
- TDD and BDD (Jest, Enzyme).
- Reviewing design produced by team and ensuring consistent implementation of solutions across related products.
- Scrum, Agile methodologies.

Eros International

Technical Lead | Sep 2011 - Mar 2013

- Overall backend development of web applications (ErosNow & ErosNow Analytics) including Nodejs, Java, JavaScript, VARNISH, HAProxy, Stunnel, NginX, etc.
- HTTPS, REST APIs for catalog (Movies / Music videos / Short Content, etc.)
- User/Session Management, Social Network Login
- Frontend development using HTML5, CSS3, JavaScript, Pug, etc.
- Movie Subtitles, Online Subscription, Advertisement (Preroll, Companion, etc.)
- Optimization & performance tuning for iPad & IE, Google Analytics.

Samsung

Lead Engineer | June 2009 – Sep 2011

- Leading a team of application framework development for SAMSUNG bada platform.
- Reviewing code changes, refactoring, optimizing codebase as per requirement.
- Worked for design & development of modules in webkit based Samsung mobile browser.
- Solving critical issues related to rendering, mentoring & training new comers.
- Received "Super Saver Award" for contribution towards total cost reduction of mobiles by developing webkit based web-browser.

Yahoo

Senior Software Engineer | May 2008 – June 2009

- Design & development of yahoo alerts.
- Updating REST APIs as per application requirements.
- Participating in low-level design & architecture of component interfaces at API level.
- Contributing to code-review and unit-tests.

Hewlett Packard

Software Engineer | June 2005 – May 2008

- Unit-tests for APIs sanity checks supported by libIO on HPUX 11i.
- Porting various thread-unsafe components of libIO thread-safe using TLS.
- Key contributor and developer in IPMI team. Developed IPMI Tool in C++.
